URBAN LEADERSHIP SERIES

In collaboration with the Residential and Civil Construction Alliance of Ontario (RCCAO), the Canadian Urban Institute presents the first session in the new Urban Leadership Seminar Series:

Buying Into A Sustainable Economic Recovery - Greening Infrastructure For The Long-term

Friday, September 17, 2010
7:30 - 11:30 a.m.
The Gardiner Museum
111 Queen Parks Crescent
Toronto, ON

Can ways be found to strike a reasonable balance between achieving public goals and meeting private needs? Professional associations representing engineers and architects, and industry coalitions representing contractors and other private companies, are proposing alternative approaches to procurement designed to stimulate competition – an essential condition for keeping a lid on prices – that also take into consideration the practical realities of maintaining professional standards and running a profitable business. Join us for a frank debate on how to preserve innovation while building a sustainable economy.

Session Moderator: Denis Chamberland - commercial lawyer with Baker & McKenzie, expert in municipal procurement

Keynote Speakers: Steve Bauld and **Kevin McGuinness**, Purchasing Consultants International Inc.

A panel of experts will include **Steve Rose**, Malroz Engineering Inc., representing the **Ontario Society of Professional Engineers (OSPE)**, **Erfa Alani** from the **Ontario Ministry of Government Services**, **Gerry Doyle**, President of the **Ontario Association of Architects (OAA)**, and an expert on green procurement.

Presented in collaboration with the Residential and Civil Construction Alliance of Ontario (RCCAO).

Registration Rates: Members, \$95; Non-Members, \$135 -- No HST applies.
